

Luv Bunnies 4x4

The Luv Bunnies are embroidered in two parts. The bunny ears are made separately and then attached to the bunny body in the hoop.

Fabric Choice

You can use pretty scraps of plain or patterned fabrics for these designs. Choose a light to medium weight fabric. Thick or heavy fabrics make turning difficult. All the seams are enclosed.

Step 1: Embroider the Bunny Ears

- The design required is called Bunyears
- Embroider colors 1 to 3
- Place a piece of fabric on top of the design, right sides facing each other
- Embroider color 4. This attaches the fabric to the embroidered top.
- Remove from the hoop and trim away excess fabric and stabilizer.
- Turn the bunny ears right side out
- Press and set aside

Step 2: Embroider the Bunny Body

Design Bunny01 may be personalized. Add text or an initial in your editing software.

1. Embroider your design up to and including the second last color
2. You will notice that there are two little lines embroidered at the top of the bunny's head. These are placement markers for your bunny ears.
3. Attach the bunny ears as shown in the picture below. You could also use temporary adhesive spray or sticky tape to keep the ears in place.
4. Place your backing fabric on top of the bunny design
5. Embroider the last color, which attaches the fabric and ears to the embroidered front.
6. Trim, turn, stuff and slip stitch the base closed.

This picture shows how to position your bunny ears.

The purple arrows are pointing to the positioning markers.

You could place the ears on top of the head as shown OR to the sides of the head. Your backing fabric is then floated on top of the design.
